GB: Giga-Byte

1.2 About Kernel for PST to NSF

Kernel for PST to NSF is an email migration tool for MS Outlook email client. Kernel for PST to NSF is result oriented software to convert emails and other items of .pst file to .nsf file. Kernel software successfully converts emails, calendar, drafts, journals and other items of pst file to nsf file to be easily accessed with Lotus Notes e-mail client.

Kernel for PST to NSF converts items of pst file and saves the converted items in the new or existing nsf file. Provide .pst file to the software, which will then convert and recreate same folder structure in a new or existing nsf file.

Quickly and securely convert user's emails, sent items, journals, drafts, appointments and contacts with Kernel for PST to NSF. For conversion, it supports every Lotus Notes version 8.0, 7.0 and 6.5 and MS Outlook 97 and above versions

1.3 Salient Features

Salient features of Kernel for PST to NSF include:

- It efficiently converts emails and other items of pst file to nsf file which can be easily accessed with Lotus Notes email client.
- Saves converted file in New or Existing NSF file
- Supports Unicode character conversion.
- Converts each and every item including emails, attachments, contacts, calendars, appointments, journals, to-do item list, sent mails, drafts, alarms, rules, created personal folders and many more.
- Saves converted item in Plain Text / With Formatting
- Kernel for PST to NSF supports every version of Lotus Notes and MS Outlook to perform the process of email migration.
- Free demo to test the capabilities of the tool before purchasing it.

1.4 Who Should Use this Software?

The capability of Kernel for PST to NSF to convert emails and other items of PST file to NSF file make it the best available tool for email migration. Kernel for PST to NSF efficiently converts emails and other items of a PST file to NSF file and provides professionals, organizations and individual users with a secure email migration process.

2. Getting Started

Now that you have understood the features and potential of Kernel for PST to NSF, you are ready to get hands on experience of the software. To start converting PST files to NSF files, first of all you will need to download and install this software.

It is strongly recommended that before installing Kernel for PST to NSF, you should go through the installation pre-requisites for the software to ensure that your computer is appropriately configured to run the software.

2.1 Installation Pre-requisites

2.1.1 Hardware Requirements:

The hardware requirements for installing the software are as follows:

- Pentium Class Processor
- Minimum 64MB RAM (128 MB recommended)
- 10MB for Software installation
- Disk Space - Enough space to save the results

2.1.2 Software Requirements:

The software requirements for installing the software can further be grouped into three categories – Operating system requirements and Lotus Notes and MS Outlook version requirements. The software requirements are as follows:

2.1.2.1 Operating System Requirements

Supported Operating Systems:

- Windows Vista
- Windows XP
- Windows 2003
- Windows 2000

2.1.2.2 MS Outlook Version Requirements

Supported MS Outlook versions:

- MS Outlook 97, MS Outlook 98, MS Outlook 2000, MS Outlook 2002, and MS Outlook 2003

© KernelApps Private Limited

2.1.2.3 Lotus Notes Version Requirements

Supported Lotus Notes versions:

- Lotus Notes8, Lotus Notes7 and Lotus Notes6.5

2.2 Downloading Kernel for PST to NSF for the First Time

After checking your computer with the prescribed system requirements for Kernel for PST to NSF, you can download and install the software on your computer. You can buy the full version of the software from any one of our authorized resellers – Element5, Asknet and 2CO.

If you want to try using Kernel for PST to NSF before buying it, you can download the evaluation version from the following link:

https://www.nucleustechnologies.com/download-pst-to-nsf-conversion.php

2.3 Install Kernel for PST to NSF

After downloading the installer file for Kernel for PST to NSF, you can install the software by running the file.

To install Kernel for PST to NSF:

1. Double-click the Kernel for PST to NSF installer. Follow the on-screen instructions. The **Setup Installation Complete** screen will be displayed.

2. Click **Finish** to launch the software.

2.4 Start Kernel for PST to NSF

To start Kernel for PST to NSF:

Click the **Start → All Programs →Kernel for PST to NSF**

Alternatively, you can launch Kernel for PST to NSF by double-clicking the shortcut icon available on the Desktop and Quick Launch icon.

2.5 Uninstall Kernel for PST to NSF

You may need to uninstall Kernel for PST to NSF. To uninstall Kernel for PST to NSF:

1. Click **Start → All Programs →Kernel for PST to NSF → Uninstall Kernel for PST to NSF**

A warning message will be displayed.

2. Click **Yes** to uninstall Kernel for PST to NSF.

> Before proceeding to uninstall Kernel for PST to NSF, you must ensure that the software is not running on your computer.

© KernelApps Private Limited

You can alternatively uninstall Kernel for PST to NSF from the **Control Panel** by performing the following steps:

1. Click the **Start Menu → Control Panel** and then double click the **Add or Remove Programs** icon.
2. Select **Kernel for PST to NSF** and click **Remove**. A warning message will be displayed.
3. Click **Yes** to uninstall Kernel for PST to NSF.
